## EDUCATION

### Silicon University

*Bachelor of Technology in Computer Science And Engineering | CGPA: 8.55*

Infocity, Bhubaneswar

*Aug. 2023 – Jun. 2027*

### Dhableswara Institute of Polytechnic

*Diploma in Computer Science And Engineering | CGPA: 8.75*

Khuntuni, Athagarh

*Aug. 2021 – May 2024*

## EXPERIENCE

### Android Intern

*Syllogistek Systems Pvt. Ltd.*

June 2025 – June 2025

*Bhubaneswar, India*

- Worked on a React Native (Expo) based mobile application using TypeScript, Firebase, and AsyncStorage.
- Implemented UI/UX styling, theme management, and reusable component structures across multiple screens.
- Integrated REST APIs and ensured smooth data handling between frontend components and backend services.

### Diploma Final-Year Project — E-commerce Website

2022 – 2023

*Self-Developed Project*

- Built a fully functional e-commerce website using HTML, CSS, and JavaScript.
- Designed clean, responsive UI/UX with modular and reusable code structures.
- Individually developed complete frontend flows including product display, cart interface, and navigation system.

### Academic & Personal Projects

Ongoing

*Independent*

- Developed a Home Service App (“Eaxier”) using React Native with full authentication flow and multiple service modules.
- Built Flutter applications including a Weather App with API integration and a Currency Converter.
- Created a simple Calculator using SQL logic integrated with basic frontend components.

## PROJECTS

### Eaxier – Home Service App | *React Native, Firebase, Fetch API*

2024 – Ongoing

- Developed a full mobile application offering home services with authentication, booking flow, categories, and tracking features.
- Implemented AI assistant, customizable profiles, explore/gaming section, and reusable themed UI components.

### E-commerce Website | *HTML, CSS, JavaScript*

2022 – 2023

- Built a complete e-commerce website with product listings, cart system, and reusable UI components.
- Designed clean responsive layouts and modular frontend architecture.

### Weather App | *Flutter, Dio*

2023

- Created a weather application with 7-day forecast, AQI metrics, and detailed weather parameters.
- Used Dio for API data fetching with a modern UI and smooth navigation.

### Currency Converter | *Flutter*

2023

- Developed an offline currency converter with a simple and user-friendly interface.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, TypeScript, Java, Python, C, SQL

**Frameworks:** React Native (Intermediate), Flutter (Beginner)

**Developer Tools:** Git, VS Code, Postman, Figma, Firebase Authentication, Expo Router

**Libraries:** AsyncStorage, Firebase, Dio
